GREEN SAIL

HOW TO REDUCE YOUR WASTE ON A YACHT

Reducing Waste Before a Departure:

- ☑ Pack eco friendly cosmetics (sham-poo, toothpaste and sunscreens without microbeads)
- ☑ Pack a reusable bag and water bottle
- ☑ Buy only low nitrogen and no phosphorus detergents
- ☑ Take only what you will use to avoid heavier luggage
- ☑ Avoid single use packaging
- ☑ Buy products in bulk

Reducing Waste During Your Trip:

- ☑ Separate waste and use appropri-ate bins in the marina
- ☑ Prevent cooking oil, grease and dairy from going down the sink
- ☑ Don't leave items on the deck to be blown into the sea
- ☑ Carry a keep – cup for you coffee on the go
- ☑ Pick up litter when you see it
- ☑ Be conscious of your water use onboard
- ☑ Bring a reusable water bottle and refill on the go
- ☑ Refuse plastic straws when dining out (straws suck!)
- ☑ Buy local & avoid plastic packaging
- ☑ Switch off lights and air-condition-ing whenever you leave the yacht
- ☑ Do not discharge blackwater near the shores, beaches, & anchorage sites
- ☑ Use marina facilities for showering, laundry, dishwashing, etc.
- ☑ Enjoy the wind power & choose to sail over motoring
- ☑ Never anchor on Posidonia Beds

Reducing Waste After Your Trip:

- ☑ Dispose of trash appropriately, re-cycle and use the correct bin (look out for Green Sail labels to guide you!)
- ☑ Report any environmental problem you come across
